PROFESSIONAL SUMMARY

Web and software developer experienced in custom WordPress builds, responsive interfaces, modern web applications, technical infrastructure and SEO. Combines hands-on development with expertise in location-based search, conversion tracking and technical problem-solving for service businesses.

PROFESSIONAL EXPERIENCE

Peak Leads — Freelance Web / Software Developer | *Mar–Oct 2026*

- Built and customized WordPress/Elementor websites, developing responsive layouts, custom features and integrations; resolved form, mobile UX, plugin and speed issues.
- Managed web hosting and infrastructure using AWS Lightsail, RunCloud and Cloudflare, including DNS records, site maintenance and technical troubleshooting.
- Configured GA4 and Google Tag Manager event tracking; maintained Google Business Profiles, Local Services Ads (LSA) accounts and client review/reputation responses.

Digital Revolutions — Local SEO Specialist & Web Developer | *2024–2025*

- Led local SEO for service-area businesses, creating suburb-, city- and service-specific landing pages to target searches across individual communities and locations.
- Produced service-relevant blogs, optimized on-page SEO and internal linking, supported backlink strategies, and worked on search visibility for client websites.
- Developed and updated template-based WordPress websites; created client Facebook content to build local awareness and community engagement.

SELECTED DEVELOPMENT PROJECTS

Peak Leads Blueprint: Next.js, TypeScript and Supabase-based task/client management system with roles, assignments and deliverable reporting.

In Trade CRM: Full-stack SaaS project for customer management, quoting, jobs, invoices and service operations.

Aura Check: React/TypeScript browser game using Supabase for user accounts, scoring and friend challenges.

TECHNICAL SKILLS

Web development: JavaScript, TypeScript, React, Next.js, HTML, CSS, Tailwind, PHP, WordPress, Elementor, WooCommerce, ACF.

Backend / infrastructure: Supabase, PostgreSQL/SQL, Node.js, Python, Git, GitHub, Vercel, AWS Lightsail, RunCloud, DNS, Cloudflare, WP-CLI.

SEO / analytics: Local SEO, Google Business Profile, LSA, GA4, Google Tag Manager, technical/on-page SEO, location pages, backlink strategy.

EDUCATION

Higher Certificate in Business Management (NQF 5), MANCOSA — Completed Jun 2026
